

Bevelpane

Presidential Collection

Styled for your home

Bevelpane Panels are designed to enhance the appearance and performance of any PVCu or aluminium double glazing system. Formed by use of a vacuum process, Bevelpane's comprehensive range of door panels are extremely attractive and outstandingly durable.

By combining high quality 100% PVCu with Pilkington and leading continental manufacturers' glass, we have been able to create a range which offers excellent thermal insulation alongside pleasing aesthetics.

The Bevelpane unit comprises of two PVCu skins pressed at three and a half tons per square metre to a core of E.H.D.N. Polystyrene, using adhesives, which complies with BS5750, and is resistant both to heat and moisture. The result is a core material free of CFC's with a rigid fire retardant skin, which is proof against rotting, weathering or warping, so Bevelpane units retain their colour stability regardless of exposure to sunlight.

Bevelpane Panels have a comprehensive range of door styles in a choice of various shades of white and woodgrain, which offers excellent matching to any chosen double glazing system. All panels produced by Bevelpane are protected by a 10 year guarantee backed by one of the world's largest PVCu extruding companies.

Bevelpane offer a complete design service, and will create bespoke doors to suit any requirement. Our skilled craftsmen can produce attractive side panels and top lights both of which may incorporate stained glass effects to any design specified by the home owner.

Elegant, effective and maintenance free, Bevelpane creations are the ultimate in PVCu Door Panels.

Careful monitoring of all aspects of quality control through each stage of production, from incoming material to final inspection, ensures you receive a door panel of the highest quality.
